

Jagran Public School, Noida

Student:

Shourya Srivastava

Class:

10th - C

PROJECT PORTFOLIO

Exploring ideas, innovation, and technology
shaping the digital future by projects

Student Portfolio

SHOURYA SRIVASTAVA

CLASS: X-C

About Me...

I am a student with a strong interest in technology, programming, science, and creative problem-solving. I enjoy exploring ideas beyond the classroom and turning them into practical projects, whether through coding, web development, or independent initiatives.

Alongside academics, I actively work on personal projects and technology-based initiatives. I value discipline, independence, curiosity, and consistency, and I aim to keep developing both my technical abilities and the way I approach problems.

My Skills...

- Programming: Python, Java, C
- Web Development: HTML, CSS, JavaScript
- Development: Problem Solving, Logical Thinking, Project Development
- Creative: UI Design, Digital Design, Creative Ideation
- Tools & Technologies: Git, VS Code, Linux etc.
- Soft Skills: Leadership, Teamwork, Adaptability, Independent Learning

Projects....

S.No.	Project	Additional Information
1	Fully Self Created Front End Portfolio Site	link: https://theinorbit-sf.github.io/obscure
2	Sentence Segmentation by Python with least use of Libraries	Least use of NLTK library
3	Python Based Own Coding Language	Under Construction
